

## Quality Policy

**December 2016**

Schneider Blöcker aims to be one of the leading pharmaceutical company globally through its corporate philosophy of caring for patients, consumers, environment and delivering high quality products from within its quality focused culture to ensure the highest priority is placed on the safety, efficacy and reliability of our products. To achieve this goal, leaders at Schneider Blöcker are committed to maintaining a quality culture with appropriate systems and processes in place to derive quality-focused behaviors and ensure decision making based on what is best for product quality, patient and consumer safety, and protection of Schneider Blöcker's reputation and business.

Everyone here at Schneider Blöcker is constantly paying the highest attention to quality and possesses the highest moral and ethical standards. To that end, we carry out the following.

- Schneider Blöcker's business is conducted in compliance with applicable quality regulations, codes and standards
- Division leaders are accountable to ensure procedures are in place that adequately define the expectations for work that supports or directly affects the quality of products, product registration and/or the data that supports product quality and patient or consumer safety.
- All colleagues and contingent workers have the appropriate education, training, skills and experience to carry out their work competently in accordance with applicable regulations and Schneider Blöcker's policies and procedures.
- Records, documentation and data are managed in accordance with applicable regulations
- Processes for escalating issues to ensure product integrity and patient and consumer safety are in place and consistently used.
- Ensure there is effective oversight of any third party carrying out work on behalf of Schneider Blöcker.
